एक तरफ़ा प्यार की ताकत ही कुछ  
और होती है, वो दो रिश्तो में  
बंटती नहीं है, जैसे दूसरों के रिश्तों  
में होता है इस पर सिर्फ़ मेरा हक  
है - The power of one  
sided love is unique, it  
doesn't get distributed  
into two, as it happens  
in the relationships of  
others... only my right is  
there on it.

- Ae dil hai mushkil.

“I loved something I made up, something that’s just as dead as Melly is. I made a pretty suit of clothes and fell in love with it. And when Ashley came riding along, so handsome, so different, I put that suit on him and made him wear it whether it fitted him or not. And I wouldn’t see what he really was. I kept on loving the pretty clothes - and not him at allv.”

“There are only the pursued, the pursuing, the busy, and the tired.”

“So that’s how we live our lives. No matter how deep and fatal the loss, no matter how important the thing that’s stolen from us - that’s snatched right out of our hands - even if we are left completely changed, with only the outer layer of skin from before, we continue to play out our lives this way, in silence.”  
- **Sputnik Sweetheart** by Haruki Murakami

“The world hides its head in the sands of convention, so that by seeing nothing it might avoid truth.”
